Instead of the academic activities defined by the elective elements of the study component of the doctoral program, the following activities of the doctoral student may be recognized:

- an academic course in another accredited higher education institution of Georgia. At the same time, the credits of the academic courses taken in other accredited higher education institutions of Georgia are recognized according to the principles defined by ,,Rules of Recognition of Received Education".

- an academic course at a foreign accredited higher education institution. At the same time, the credits of the academic course passed in the foreign accredited higher education institution are recognized in accordance with the rules established by the legislation.
